Re: Annual Asbestos Management Plan
Date: September 2024

Pursuant to the United States Environmental Agency's Asbestos-Containing Materials in Schools (40CFR 763, Subpart E), in 1989 the Lacey Township School District Board of Education instituted a district wide Asbestos Management Plan to address Asbestos-Containing Building Materials identified in each of its facilities. Since then, the Board of Education has conducted semi-annual operations surveillance, as well as tri-annual re-inspections. These operations surveillance and re-inspection reports are incorporated into the Asbestos Management Plan. A copy of the plan is available in the school's main office, as well as the Board of Education office located at 200 Western Boulevard, Lanoka Harbor, New Jersey.
